

ADWJ GO KART DAY

Approximately 25 competitors showed up at the Mount Sugarloaf track for the event, which comprised 3 10 lap sessions with about 12 on the track each time.

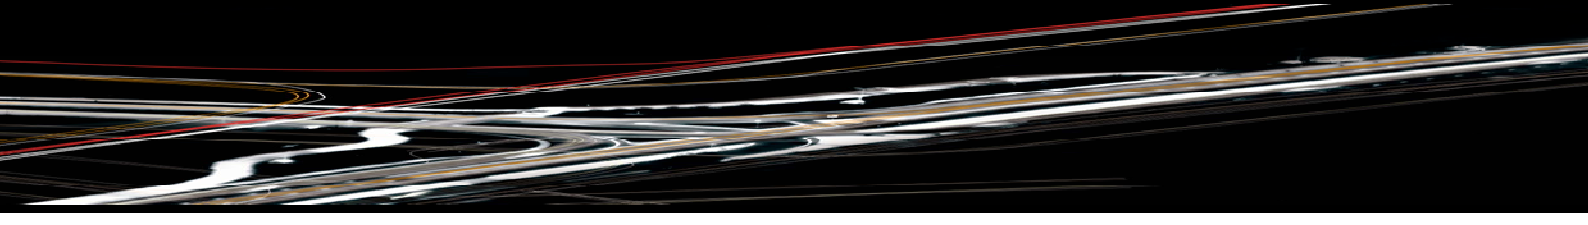

Wayne Russel from Go Karts Go supplies the organisation and the karts, and this was our first company outing with Wayne's all new race karts.

Unfortunately, the first group out was so wild and reckless that Wayne ordered them all in after 3 laps and read them the riot act about driving more safely. The day was a great success, marred only by the unfortunate failure of the timing devices which mistakenly showed me at 8th place in my group.

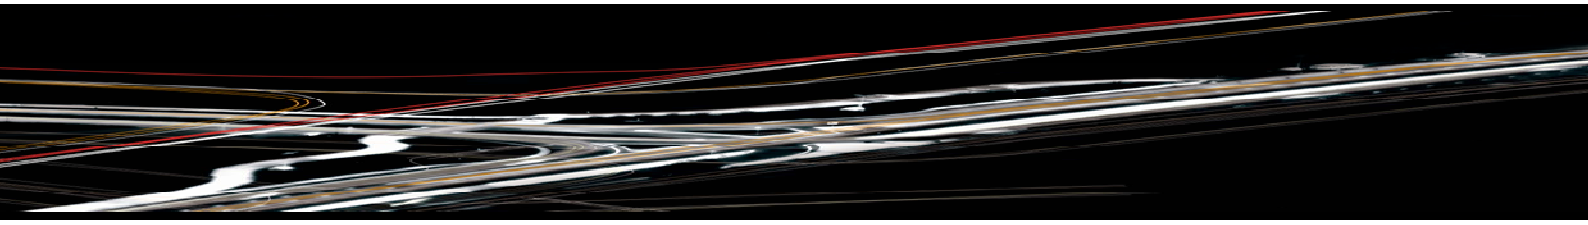

Mark Ando and Matt Owen took out the honours as fastest on the day, however this result could be considered unreliable due to the aforementioned problem with the timing devices.
