

## Position Available: Civil Design Engineer

ADW Johnson is a multidisciplinary development services company with offices located on the Central Coast and Hunter Valley of New South Wales.

We are currently seeking an experienced Civil Design Engineer to join our team in our Central Coast office. Our key services are the planning and design of civil infrastructure, project and construction management supporting land development.

We are seeking a highly motivated engineer with the following skills and experience, or an interest in expanding their knowledge in these fields:

- Degree in Civil or Environmental Engineering.
- 2 to 5 years civil design experience in infrastructure and development projects.
- Experienced in road, drainage, earthworks, wastewater and water design and stormwater modelling ideally with pumping and pressure main experience.
- Ability to work unsupervised on design projects including liaising with client and authorities.
- Proven experience in AutoCad program.
- Experience in 3d modelling software, preferably 12d.
- Ideally experience in DRAINS, HECRAS and Pipes.
- Strong verbal and written communication skills.
- Current drivers licence.

An attractive salary and remuneration package will be negotiated based on experience.
