

Position Available: Electrical Engineer

ADW Johnson is a multidisciplinary development services company with offices located on the Central Coast and Hunter Region of New South Wales.

We are currently seeking an experienced Electrical Engineer to join our team. Our key services are planning and design of civil infrastructure, project and construction management supporting land development.

We are seeking a highly motivated electrical engineer with the following skills and experience, or an interest in expanding their knowledge in these fields:

- Electrical Engineering tertiary qualifications.
- A minimum of 5 years post graduate experience in a range of reticulation projects, including underground and overhead electrical design.
- A strong knowledge and design experience especially in lighting and power.
- A thorough understanding of Electrical Distributors Construction standards and specifications.
- Ability to work unsupervised on projects including liaising with clients and authorities.
- Experience in the use of AutoCad.
- Strong verbal and written communication skills.
- Current drivers licence.
- Ability to design electrical switch boards for waste water pump stations, would be preferable.

An attractive salary and remuneration package will be negotiated based on experience.
